

A world map with a glowing communication network overlay. The map is rendered in shades of blue, with the continents appearing as darker blue shapes against a lighter blue background. A complex network of white lines, representing communication routes, is overlaid on the map. These lines are most dense in Europe and North America, with many lines crisscrossing between these regions and extending to other parts of the world. The lines also form a dense web in the Indian Ocean region. The overall effect is a global network of connections.

THE WORLD'S COMMUNICATION NETWORK

Press

**The World's
Communication Network**

We deliver the most sophisticated communications through an unmatched state-of-the-art global fiber backbone of about 530,000 km in continuous expansion. Join our network!
