

2013 Advertising Campaign
NO BOUNDARIES

No Boundaries

The heart of the campaign is the creation of a work of art that represents a world. A world in thorough evolution, embraced by an invisible solid shaped as a cube, whose interconnections generate the four product clusters. The cube is that solid that fills the space with regularity, just like Sparkle, that through its products is able to stay close to its customers and is able to adapt to their ever evolving needs by anticipating future and still unexpressed requirements.

The distinctive product features of our IP&Data, Mobile, Corporate and Voice solutions become visible when we look closer at this world. The dotted lines through the oceans recall our Seabone, smartphones show all service icons our mobile data solutions make possible, while business hand-shakes express the partnership we establish with our corporate customers and the chat icons become green when a voice connection is established.

The Corporate Video - which is part of the creative concept behind the campaign - shows the making-of the work of art, alternating with displays of Sparkle's main business areas and key facts, expressing the construction of a new world where Sparkle is able to fulfill all the promises expressed in the campaign.

Press

Like dreams, ideas and thoughts.
We have no boundaries.
