

Seabone Peering Policy

The Peering Guide is used by Sparkle to evaluate requests made by Internet Service Providers (ISPs) for the purpose of directly exchanging IP traffic with the Sparkle IP network Seabone Autonomous System (AS) 6762. To request the Seabone Peering Guide, please send an email to PEERING@SEABONE.NET

Note: The Peering Guide is made available for informational purposes only. It does not constitute an offer to enter into a Peering Agreement. In the event your network enters into a Peering Agreement with Sparkle, your legal rights and obligations will be defined in that agreement and the Peering Guide will not be a part of that agreement. Sparkle reserves the right to revise or change the Peering Guide at any time without notice.
