

A world map with a glowing blue communication network overlay. The network consists of numerous white lines connecting various points across the globe, representing a global communication infrastructure. The map is rendered in shades of blue, with the network lines being a lighter, glowing blue.

THE WORLD'S COMMUNICATION NETWORK

Press

The background of the slide is a dark blue world map. Overlaid on the map are numerous glowing white lines that represent a global fiber optic network. These lines are most dense in Europe and North America, with many lines crisscrossing the Atlantic Ocean and connecting the continents. The lines also extend to South America, Africa, and Asia, illustrating the global reach of the network.

 **The World's
Communication Network**

We deliver the most sophisticated communications through an unmatched state-of-the-art global fiber backbone of over 600,000 km in continuous expansion. Join our network!
