## METAMORFOSIS II: THE FIRST GREEN DATA CENTER IN GREECE

Launched in 2021, our new data center offers about 6,000 m<sup>2</sup> of space and a modular design to accommodate the needs of customers seeking to expand their presence in the industrial area of Metamorfosis. It is built following the **most stringent anti-seismic criteria** and designed to **guarantee the maximum standards of reliability and performance while minimizing its impact on the environment** thanks to the adoption of the latest energy-efficient power and cooling systems available in the market. In addition, its MeetMeRooms are closely linked to Metamorfosis I, thus leveraging the **extensive ecosystem of ISPs and content providers** already collocated there. Customers can choose different **Multicloud and Connectivity services**.  
**An offer where everything is connected.**

### METEMORFOSIS II AT A GLANCE

- 5,831 m<sup>2</sup> of total space
- 7.7 MW total power for a maximum capacity of 700 racks in six modules
- Office Space for Disaster Recovery needs
- Delivery air 24 °C ± 2 °C, Humidity 50%±15%
- Compartmentalization and easy access to critical technical rooms
