

 SPARKLE

TÜRKIYE DATA CENTER

TÜRKİYE DATA CENTER

Enterprises of all sizes are increasingly moving their workloads to the cloud to improve their operational efficiency and business agility. However, it is essential to make sure that such data are stored in a safe and technologically advanced environment with uninterrupted communication. Sparkle, active in Türkiye since 2002, manages and operates a state-of-the-art open data center in Istanbul, in the area of Yenibosna, as well as a disaster recovery site in Ankara, all fully integrated with Sparkle's Tier-1 global backbone.

With a total built area of 5,500 m² and a maximum capacity of 650 racks, our facility is designed to offer customers a sustainable, secure and best-in-breed infrastructure for their mission-critical IT systems while providing fast and reliable connectivity to the world.

TÜRKİYE DATA CENTER AT A GLANCE

- 5,500 m² of total space
- 650 racks and 4,350 m² white space
- Disaster Recovery in Ankara
- Delivery air 24 °C ± 2 °C, Humidity 50%±15%
